# **PCAP Touch Screens with Dual OS**

22" | 32" | 43" | 50" | 55"

# **Dual OS - Windows & Android**

Both Android and Windows operating systems are installed on the integrated PC for ultimate flexibility. These displays provide a fully integrated solution - whether your application calls for Android or Windows.

# **10 Point PCAP Touch**

Having up to 10 touch points allows you to manipulate images, zoom in an out as well as perform many other touch gestures; much like you would with a domestic tablet. It also allows for multiple users interacting with the screen at one time.

#### **Surface Plasma Treatment**

The oleophobic coating makes the glass front more resistance to oil and water residue left by fingerprint marks and makes touch gestures smoother. Unlike other touch screens the glass is not etched, vastly improving the optical clarity.

None Treated Touch Screen

PCAP Surface Plasma Treated Touch Screen

### 450cd/m<sup>2</sup> IPS Panel

Commercial grade IPS technology accurately displays image quality and colour depth with no fall-off in colour accuracy. These panels are designed to achieve ultimate lifelike colour temperature when used in either landscape or portrait.

#### 24/7 Commercial Use

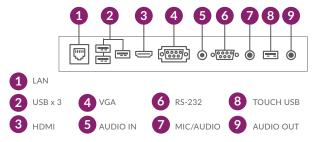

These displays use a commercial grade LCD panel and LED backlight. They have the ability to be in constant use 24/7 for over 70,000 hours and have no external buttons or controls to avoid tampering.

#### **Attach External Devices**

If the internal PC is not powerful enough for your application you can connect it to an external source, like a more powerful PC or media player, using HDMI or VGA/3.5mm audio and USB to use the display as a touch screen monitor.

#### **Built In Wi-Fi**

As well as having an Ethernet port you can wirelessly connect to the internet thanks to the built in Wi-Fi.

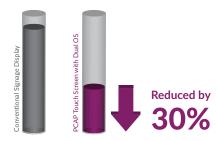

# **Mirror Version**

A special version of the PCAP Touch Screen with a mirror finish is available in a 50" model.

#### **Low Power Consumption**

The LED backlight technology provides improved brightness and contrast. Their lifespan is drastically improved to over 70,000 hours and the power consumption is reduced by around 30%.

## **Giant Tablet Styling**

Their tempered edge-to-edge glass face, rounded corners, super slim profile and aluminium surround all add to the captivating tablet-like aesthetics as well as protecting the internal components from potential damage.

#### **Integrated Speakers**

The displays feature two integrated slimline speakers for applications that require an audio element.

### **Touch CMS**

For a small charge you can take advantage of our user-friendly CMS, allowing you to conveniently create your own interactive content.

# **Specification Table**

		22 Inch	32 Inch	43 Inch	50 Inch	55 Inch
